

MEDMULS B1

INCI NAME:	CETEARYL ALCOHOL, CETEARETH 20
CAS NUMBER:	67762-27-0/8005-44-5, 68439-49-6

Medmuls B1 is a blend of Cetearyl alcohol and ethoxylated Cetearyl alcohol offered as 100% active material. It is an excellent non-ionic O/W emulsifier, co-emulsifier, emulsion stabiliser and viscosity modifier with a broad range of application in cosmetic and pharmaceutical preparations.

Medmuls B1 provides the formulator with special benefits such as stability in a broad pH range and contribution to high viscosity in the formulation.

As an easy to apply, high performance emulsifier with added benefits of higher viscosity and broad pH range, it's an excellent choice for **colour cosmetics, depilatories, hair relaxers and bleaches, facial masks, acne treatments, sun protection products, antiperspirants and deodorants and foot care products**. Because of its non-ionic nature, vegetable origin and excellent skin feel, it's a very suitable choice for **leave-on products**.

SPECIFICATIONS	
Appearance (25 °C)	waxy flakes
Colour	white
Acid value (mg KOH/g)	0,5 max.
Saponification value (mg KOH/g)	1,0 max.
Melting range (°C)	45-55
